

# Addition with base 10 blocks (tens and ones)

## Grade 1 Math Worksheet

Draw blocks to solve the addition questions.

Example:  $25 + 12 =$

$$= \begin{array}{l} \underline{3} \text{ tens} \\ \underline{7} \text{ ones} \end{array} = \underline{37}$$

a)  $14 + 23 =$

$$= \begin{array}{l} \underline{\quad} \text{ tens} \\ \underline{\quad} \text{ ones} \end{array} = \underline{\quad}$$

b)  $20 + 34 =$

$$= \begin{array}{l} \underline{\quad} \text{ tens} \\ \underline{\quad} \text{ ones} \end{array} = \underline{\quad}$$

c)  $42 + 21 =$

$$= \begin{array}{l} \underline{\quad} \text{ tens} \\ \underline{\quad} \text{ ones} \end{array} = \underline{\quad}$$

d)  $33 + 26 =$

$$= \begin{array}{l} \underline{\quad} \text{ tens} \\ \underline{\quad} \text{ ones} \end{array} = \underline{\quad}$$

e)  $51 + 11 =$

$$= \begin{array}{l} \underline{\quad} \text{ tens} \\ \underline{\quad} \text{ ones} \end{array} = \underline{\quad}$$
