

Sound words

Grade 1 Science Worksheet

Choose the correct word.

A loud sound can travel (three feet / a long distance).

A loud sound can make something (vibrate / disappear).

The further a sound has traveled, the (softer / louder) it sounds.

A big dog will probably have a (low / high) pitched bark.

A small dog will probably have a (low / high) pitched bark.

We call sounds we don't like (noise / echoes).
