

# Subtraction (numbers less than 50)

## Grade 1 Math Worksheet

4. There were 42 glasses of juice. The guests at the party spilled 4 glasses of juice and drank 31 glasses of juice. How many glasses were left?
5. There were 21 children at his party. Alvin's mother prepared 30 loot bags. Each child only took one loot bag. How many loot bags were left?
6. Write the subtraction sentence that fits this: "Alvin were writing thank you cards for the 21 guests. He finished writing 7 cards and he still need to write 14 cards."
